PRECONTRACT APPROVAL RECORD
(PART TWO)

CONTRACT

RD-X-63

The services and equipment being procured by this Contract No. RD-X-63 are in furtherance of the National Defense Program(s), the nature of which cannot be publicly disclosed for security reasons. The Contracting Officer therefore determines that this procurement must be accomplished by negotiations pursuant to the authority of Section 3(a) of PL 81-110 and Class Determination and Finding, OXC 2122, signed by the DDCI on 15 October 1961.

Certification of funds for this contract will be handled under the procedure approved by the Director of Central Intelligence on 15 December 1956 which, in effect, results in all covert expenses involving issuance of Treasury Checks being accumulated in a separate account within the Finance Division. The amounts in this account will be periodically scheduled for certification of the vouchers by the Director. This procedure eliminates the necessity for a separate certification of authority under Section 8(b) of Public Law 110, 81st Congress (formerly 10(b) - see 85-507 dated 7/7/58) for each contract.

The following comments describe the procurement hereby effected, the terms and provisions generally of this contract/amendment, and a resume of major issues negotiated:

1. Contract No. RD-X-63 provided for research and development support to improve the operating effectiveness of various programs using photographic sensors. The contract was entered into on 20 December 1962 and terminated for the convenience of the Government on 30 June 1963.
2. The final cost and property audits of the contract have been completed and a report thereof has been submitted to the undersigned. The Auditor has recommended for acceptance total cost in the amount of \$150,217. This cost together with the approved fixed-fee of \$11,567 results in a final approved contract price of \$161,784.
3. In connection with this settlement there are attached the following documents:
 - Audit Report OSA-4326-65
 - Contractor's Release
 - Contractor's Assignment of Refunds, Rebates, Credits and Other Amounts
 - Patent Report
 - Residual Inventory Report
4. All work and services required under the contract through termination have been performed satisfactorily, all residual inventory has been properly accounted for, no inventions were made under the contract.
